# Welcome to MTWORLD

MTWorld is an innovative Forex trading platform that operates collaboratively, featuring a user-friendly interface and powered by cutting-edge blockchain technology. Designed to revolutionize Forex trading, it offers PAMM Trade service, leveraging advanced Expert Advisor technology that consistently generates impressive profits with safety and reliability.

Our unwavering commitment to innovation, excellence, and trust positions MTWorld at the forefront of the industry, creating a legacy for future generations.

We invite everyone to join our vibrant network and collectively build a dynamic Forex trading community. Together, let's embark on a journey towards limitless financial freedom, only at MTWorld.

## Mission

**MTWorld's primary mission is to empower individuals to transform their investments from USD 100 to an impressive USD 100,000 by leveraging our innovative platform. We aim to provide users with the tools and resources necessary to achieve significant financial growth, ensuring that everybody using the platform will be able to reach their investment potential.**

# Service

## PAMM TRADING

**PAMM (Percentage Allocation Management Module) account is a managed account where investors entrust their funds to a professional trader who use Expert Advisor (EA) with advanced strategies to generate optimal and consistent profits. The use of sophisticated EA in PAMM accounts enhances efficiency, reduces emotional influence in trading decisions, and swiftly capitalizes on market movement opportunities.**

# Package

**PAMM**

**USD100 = 1 LOT**

**Minimum is 1 Lot, there is no  
maximum Lot**

The profits generated from the PAMM account are distributed systematically according to the following percentages:

**60%**  
Users/Clients

**31%**  
Company

**9%**  
Referral

# Transactions: Crypto USDT

USDT (Tether) is used as the primary transaction medium on the MTWorld platform to ensure smooth and efficient transactions. By offering a stable and secure digital currency, USDT helps maintain seamless financial operations. This option allows users to carry out their activities easily, leveraging the stability and reliability of USDT. With the use of USDT, the MTWorld platform can operate globally, making transactions more organized, secure, and user-friendly.

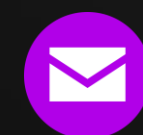

# THANK YOU
